Finally - after numerous night shifts of our web guru Cezary and a lot of discussions about which contents should be presented first, our new website at Spreenauten.de is launched today. It will also replace our old website, which only gave a very poor overview of our services - especially regarding DMR and TETRA radio cells. We have also tried to make the contents informative even for radio inexperienced users and to give a general overview of us and the business areas in which we are active (radio technology, IT etc.). The website is intended to provide information about the technologies and the main brands ( Motorola, Hytera, Sepura, Zebra) we work with. We are particularly pleased to be able to present a large part of our line up (i.e. our team). In our newsletter we will inform about news, updates (about our company, radio technology and IT) in the future. We are always happy to receive feedback, criticism and suggestions regarding our new website and our services.

... for an immensely strong first half of 2020! 57% growth in the first 6 months, and this despite Corona and the weaknesses in our rental business - this is definitely a reason to thank all our business partners and friends very much! The Spreenauten have always been active for a large number of small, medium-sized and a few large customers - this healthy basis obviously enables us to survive difficult economic times, for which we are very grateful. In addition to this, there is our growing business in the areas of software as well as hardware development. We have also received the first orders for our mobile UV disinfection stations. Many thanks! For you, we are happy to continue to pick up speed and remain, as we say: customer obsessed!

The Spreenauten work in an equally exciting and inspiring industry and can now look back on over 20 years of business experience (founded in 1999 as a sole proprietorship, since 2011 as Spreenauten GmbH). In addition to the rental and

sale of Motorola radios and software development, we have been concentrating on the installation of radio cells since the company was founded - mainly internationally (focus on Europe) and here on large industrial sites and in large halls. For these installation and assembly activities, we are constantly looking for skilled and motivated helpers and electricians (m/f/d) who would like to help on site. We always work in teams, usually led by an engineer and always with experienced technicians. Of course we are learning. We communicate in German or English - one of these languages should be mastered at an advanced level. In addition to (very) fair conditions (also regarding overtime, holidays, benefits etc.), we offer a secure and permanent job. We are looking forward to receiving your application by e-mail, gladly with CV and salary expectations to [neuefreunde@spreenauten.de](mailto:neuefreunde@spreenauten.de). Here you can find further current job offers of the Spreenauten GmbH.

### **Spreenauten - United we stand, divided we fall!**

 04/03/2021

Diversity is one of the main principles of Spreenauten GmbH - besides our deep-rooted commitment to the LGBTQ movement and our commitment to the rescue of refugees at sea, we support all projects that have a colorful, free and anti-fascist society as their goal. From now on we visualize this with our logo addon, the rainbow including the brown and the black ray of light. As an internationally operating company with an international workforce, we strongly oppose any form of racism, whether in our company or in society. In addition, we try to create escape & rescue rooms in our locations and therefore also mark them with the rainbow. Spreenauten - United we stand. Divided we fall!
