**Repair of Radio Equipment & Radio Technology**

The repair of radios, radio cells, repeaters and accessories is carried out by us across all manufacturers (Motorola, Hytera, Sepura, ICOM and many more) in our electrotechnical workshop in Berlin. Free of charge quotation, free replacement equipment for the period of repair and our professional workshop team are at your disposal.

**Programming of Radios & Radio cells (repeaters)**

We are happy to take over the programming of your Hytera and Motorola radios. Optimise code plugs, check existing programming (physical & programming), train your staff\* and keep them up to date with the latest software and firmware. Of course, we are also happy to implement firmware updates.

**Maintenance of Radio Technology & Radio cells**

The maintenance of your radio technology is in the best hands with us. With a strong focus on the safety of your radio communications and the health of your employees\*, we ensure the technical functionality of your radio cell and radio equipment. In doing so, we go far beyond the industry standard and offer numerous additional options such as penetration testing or codeplug optimization.

**Radio Technology Consulting**

Benefit from our experience in radio technology, WLAN & DECT & digital signal processing and the development of PTT applications. Of course, we also evaluate existing systems and - if necessary - suggest optimisation measures.

## Application Development

Application Development - Als Motorola Development Partner entwickeln wir für Sie sinnvolle Anwendungen für Motorola Funkgeräte & rund um das Thema Funktechnik.
